## FOREWORD

### by the Asian International Arbitration Centre (“AIAC”)

This year marks a significant event in the ALSA calendar - the first ALSA International Mediation Competition 2020 (the “AIMC”), and we feel privileged to have become an exclusive partner of this new initiative. Congratulations to the Organising Committee and all who have participated in this event!

Being one of the oldest institutions in the South East Asia, the AIAC has developed into the alternative dispute resolution (ADR) hub which focuses on arbitration, adjudication, mediation, and domain name dispute resolution. The recent introduction of Singapore Convention on Mediation commenced a new era in international dispute resolution, and this new chapter will require more mediation practitioners with advanced knowledge and skills.

Therefore, the AIMC is a timely and noble initiative which will allow participating students to gain practical mediation skills, and learn the intricacies of the ADR industry. Despite the rise of international arbitration over the past few decades, there have been a limited number of mediation moot competitions available to students. In this regard, the AIAC is delighted to note that the AIMC will increase the students’ awareness of mediation, and provide them with a platform to master their practical mediation skills. We also anticipate that this initiative will teach participants how to conduct proceedings successfully, as well as negotiate, formalise, and enforce mediated settlement agreements. Someday, fictional clients will be real people in real predicaments, requiring your very real mediation skills. We sincerely hope that you will enjoy the proposed mediation scenarios and share your feedback with us later on.

It has been our absolute pleasure to have been presented with this opportunity to contribute to the AIMC, working behind the scenes in drafting the 2020 Moot Problems, as well as co-organising the AIMC Webinars Series. As you make your way through each round of the competition, we hope that the AIMC leaves a lasting impact on your views towards resolving conflicts through compromise and negotiation, in a private and informal manner.

We would also like to extend our gratitude to the ADR community and the leading practitioners who have lent their time and efforts in realising the AIMC – your unwavering support and participation have been paramount to this initiative’s success.

We look forward to future cooperation and involvement in the AIMC.

Wishing you all the very best,  
**AIAC**

- Separate rules for expedited procedure *Fast Track Arbitration Rules*

- Option for parties to choose any currency for international arbitration for greater business flexibility

### ARBITRATION

The revised AIAC Arbitration Rules, 2018 (formerly known as the “*KLRC Arbitration Rules*”) is a set of rules and procedure which adopt the framework provided by the UNCITRAL Arbitration Rules (as revised in 2013). 2017 brought 100% increase in arbitration cases at AIAC compared to 2016. These New Rules are timely in the light of recent trends of costs and length optimisation of arbitration proceedings.

### MEDIATION

The AIAC Mediation Rules (formerly known as “*KLRC Mediation Rules*”) are a set of procedural rules encompassing different aspects of the process of Mediation to aid parties in resolving both international and domestic disputes. With the AIAC Mediation Rules and the Malaysian Mediation Act 2012, AIAC seeks to promote mediation as a desirable commercial option for parties in Malaysia.

### MODEL ARBITRATION CLAUSE

“Any dispute, controversy or claim arising out of or relating to this contract, or the breach, termination or invalidity thereof shall be settled by arbitration in accordance with the AIAC Arbitration Rules.”

### ADJUDICATION

Since the inception of CIPAA (The Construction Industry Payment & Adjudication Act 2012), AIAC has administered over 1,400 adjudication cases with 2017 recording the highest number of adjudication cases with a total number of 708 cases alone. In carrying out its duty as the adjudication authority, AIAC also regularly conducts adjudication training programmes as part of its efforts to regulate and maintain the high standards of competency expected of Malaysian adjudicators.

### DOMAIN NAME COMPLAINTS

AIAC administers disputes under the ADNDRC rules in generic top-level domains offering resolution of “.my” domain names disputes (amongst others), through the Malaysian Network Information (MYNIC) rules and policy. Domain disputes are usually settled in less than 60 days at AIAC, being one of the most cost effective providers in Asia.

### AIAC'S STANDARD FORM OF BUILDING CONTRACTS

AIAC's SFC is Malaysia's first ever CIPAA-compliant suite of building contracts and contains more mechanisms for parties to resolve disputes and deadlocks including mediation, encouraging parties to continue work despite disputes, while preserving parties' rights till completion. The hallmark of AIAC's SFC is continuity of works and working relationships. More information at [sfc.aiac.world](http://sfc.aiac.world)
